Underwater massage bath tub

underwater massage

extra large basin for easy  
use of the treatment hose

application:

- natural treatment
- hydrotherapy

**REHABILITACJA  
2005**

# AQUAMEDEN

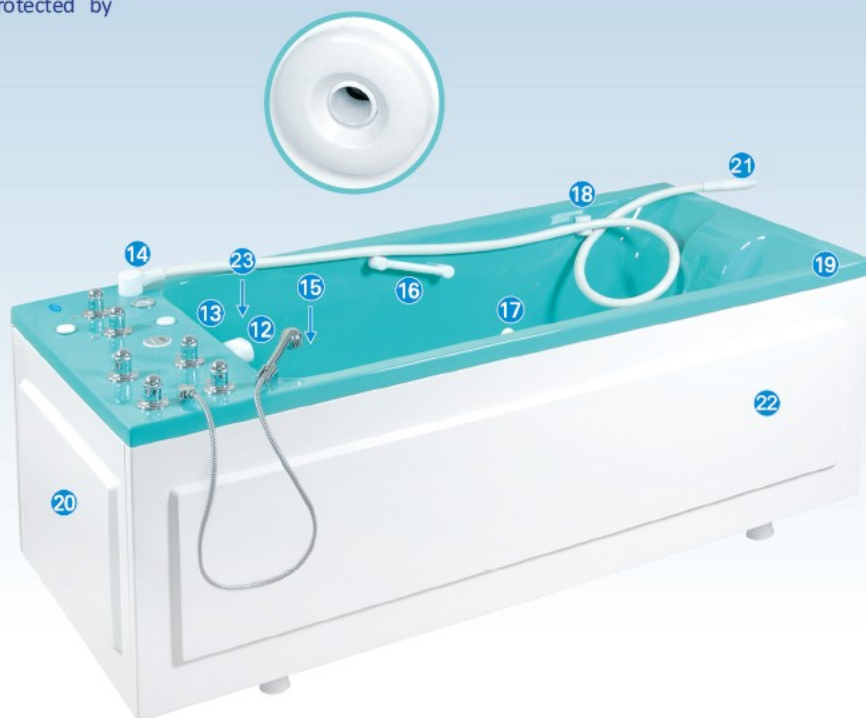

This bath tub allows for two different hydrotherapy treatments:

- manual underwater massage using a water jet with stepless water pressure control
- automatic hydromassage using 8 side nozzles

Elegant, robust body and control panel made of high quality acrylic resin reinforced with polyester laminate and seated on 4 adjustable height supports with rubber protective caps. Four sides of the bath tub protected by shaped laminate covers.

- 1 cold water valve tap
- 2 warm water valve tap
- 3 control panel
- 4 side nozzle valve tap
- 5 hydro massage valve tap
- 6 manometer
- 7 aeration knob
- 8 disinfectant container plug
- 9 cold water shower tap
- 10 warm water shower tap
- 11 shower handle
- 12 outflow
- 13 overflow
- 14 hose
- 15 drain plug
- 16 railing

- 18 hose holder
- 19 tub basin
- 20 & 22 side covers
- 21 massage nozzle
- 23 legs bracket

Comfortable, safe patient steps. Lightweight, durable, with anti-slip finish for maximum security.

patient steps

## Product features:

- underwater massage jets with replaceable nozzle tips
- water jet hose pressure indicator
- 8 side nozzles for hydro massage + 3 nozzles for back
- 2 modes of hydro massage intensity adjustment:
  - using aeration knob
  - using side nozzle tap
- integrated plastic water pump with output of 50 l/min. (3 m<sup>3</sup>/h)
- pump with „dry-run“ protection
- 6 adjustment valves
- warm and cold water supply from the water supply system
- water supply system using copper and PVC pipes (except connectors and valves)
- water system disinfection
- railings helping to maintain proper body position during treatment
- additional 2 handgrips for the patient (version without nozzles)

## TECHNICAL DATA:

Capacity [l]:	650
Capacity up to the overflow [l]:	550
Min. capacity for treatment [l]:	250
External dimensions (HxWxL):	2350 x 1000 x 860
Colour:	calypso green (white - option)
Supply voltage [V]:	230 / 50 Hz
Power wattage [W]:	max. 2400
Max. time of:	
-filling (up to overflow) [min.]:	6,0
-draining [min.]:	4,5
Water jet pressure up to [bar]:	4,5
